- › Cross-Functional Leadership
- › KPI Scorecard Design
- › Change Management
- › Go – to – Market Strategy & Revenue Growth
- › Channel Development & Management
- › Network Expansion
- › Leadership Pipeline & Succession Planning
- › Enterprise Digital Transformation
- › Automation of Operational Workflows
- › Predictive Analytics & Forecasting

EXECUTIVE SUMMARY

I run retail networks — the commercial side and the operational side, at the same time. Most operations leaders do one or the other. Across 12+ years and four countries, I have owned P&Ls up to USD 200M: 90 stations, 20 million litres monthly, 1,200+ people.

The results — USD 36M revenue uplift, 30% OPEX reduction, 32 months of record market share **from making decisions early and holding the consequences.**

“I stay close enough to the business to know when the numbers are lying.”

I lead by staying near the problem, making the call, and building teams that hold the line when I am not in the room.

LEADERSHIP & SCALE

TEAM SIZE	REVENUE	MARKETS	TENURE
1,200+	\$200M	4 Countries	12+ Years

SELECTED BUSINESS IMPACT

- ◆ **Drove USD 36M annual revenue uplift while cutting OPEX 30% in the same 24-month window** — rejected the conventional stabilise-first approach; rebuilt operations and accelerated commercial strategy simultaneously, a rare combination at this scale that held for two consecutive years.
- ◆ **Held 17.5% retail market share for 32 consecutive months** — the highest and longest sustained share position in territory history — built through disciplined dealer performance management, incentive frameworks, and competitor positioning, not promotional pricing.
- ◆ **Transformed a fragmented 90-station network into a fully digitally governed operation** — ERP, CRM, Forecourt Automation, and real-time KPI dashboards deployed and adopted enterprise-wide; 40% efficiency gain measured post-deployment against pre-deployment baselines.
- ◆ **Eliminated 58% of network-wide stock loss while the network continued processing 20 million litres monthly** — rebuilt inventory governance, audit protocols, and demand forecasting under live operating load; zero disruption to throughput.
- ◆ **Built and scaled the B2B Fleet Card Programme from zero to 30% fuel sales growth within 6 months** — owned full go-to-market: framework, customer portal, dealer integration, network rollout; the fastest new-channel ramp in the business.
- ◆ **Sustained 15–20% annual sales growth for six consecutive years at Reliance BP** — directed a state-wide petroleum dealer network through two full business cycles, consistently beating commercial targets by 10–15%.

PROFESSIONAL EXPERIENCE

Head of Business

Lake Oil Group · Nairobi, Kenya · Sep 2026 – Present

- › **Full P&L and commercial accountability** — sales, channels and operations
- › **Building the team, systems and KPI framework** to scale the business

Head of Sales & Operations — AGM Level

Mount Meru Petroleum Limited · Lusaka, Zambia · Mar 2023 – May 2026

USD 240M revenue · 90 stations · 20M litres/month · 1,500+ employees · Full P&L · Multi-province

Took ownership of a scaling business with no unified commercial framework. Made the decision to stabilise and accelerate simultaneously.

- › **USD 36M revenue uplift (15% growth)** — unified go-to-market across 90 stations; 12+ consecutive quarters of above-target delivery
- › **17.5% retail market share for 32 consecutive months** — longest sustained record in territory history; driven by commercial strategy, not pricing
- › **30% OPEX reduction, USD 3.6M+ saved annually** — renegotiated 15+ vendor contracts, rebuilt SOPs, deployed process automation
- › **58% stock loss eliminated** — rebuilt inventory governance under live load; 20M litres/month continued without interruption
- › **16 greenfield stations commissioned** — zero post-handover compliance failures; owned full cycle from site eval through commissioning

Arabic → Conversational

- › **40% operational efficiency gain post-ERP** — directed Forecourt Automation, Auto-Indenting, Audit Management across all 90 stations
- › **B2B Fleet Card Programme built from zero** — full go-to-market owned; 30% fuel sales increase within 6 months of launch.

Network Development Manager

Reliance BP Mobility Limited · India · Mar 2017 – Feb 2023 (6 Years)

State-wide petroleum dealer network · 25+ direct reports · Promoted from Truck Stop Manager

Promoted on commercial delivery. Took state-level accountability for dealer performance, channel growth, and network compliance simultaneously.

- › **15–20% annual sales growth for six consecutive years** — consistently beat commercial targets by 10–15% through structured dealer incentive frameworks
- › **8 new dealers onboarded** — each committing ~USD 1.2M in station investment; governance frameworks converted prospects into long-term committed capital
- › **Orchestrated operational and service excellence** resulting in over **95%** customer satisfaction for four consecutive years.

Restaurant GM → Acting Operations Manager (10 months)

Papa John’s International · Saudi Arabia · Sep 2014 – Sep 2016

- › **Held all-in OPEX below 28%** — market-leading for the region — while opening 5 new stores
- › **Directed regional Training Department**; built onboarding and readiness programmes adopted across the Saudi network

Assistant Restaurant General Manager

Global Franchise Architect (Pizza Corner) · India · Mar 2014 – Aug 2014

- › **Directed full-spectrum restaurant operations**, including guest service, employee management, sales & marketing, property upkeep, and financial performance.
- › **Implemented budgetary and operational controls**, maintaining expenses within defined limits while ensuring service benchmarks and profitability.
- › **Led talent development initiatives**, coaching staff to achieve a **~35%** promotion rate and establishing a reputation as a trusted advisor for performance reviews.

Assistant Restaurant General Manager

Hard Castle Restaurants (McDonald’s) · India · Feb 2012 – Feb 2014

Promoted from Management Trainee to ARGM in 2 years

- › **Boosted restaurant revenue by 40%+**, leveraging quality-driven service systems, enhanced team productivity frameworks, and targeted loss-prevention programs.
- › **Accelerated career progression** from Management Trainee to Assistant General Manager in just two years, demonstrating high-impact leadership and operational excellence.
- › **Enhanced workforce productivity** and optimized labour costs by implementing strategic scheduling, performance management, and structured cross-training programs.

KEY TRANSFORMATION PROJECTS

01	Forecourt Automation & KPI Dashboard · 2023–2026 Directed BRD authoring and ground-level rollout across 90 stations. Outcome: 20% post-deployment efficiency gain.
02	Fleet Management Card Programme · 2023–2025 Built full B2B go-to-market from zero — programme, portal, dealer training, network rollout. Outcome: 30% fuel sales uplift, 30% admin reduction.
03	Enterprise ERP / CRM / Automation · 2023–2026 Directed end-to-end digital transformation; owned all BRDs and KPI frameworks. Outcome: 40% efficiency gain, real-time visibility across all sites.
